their money. The same style and quality of pictures can now be had for one dollar that formerly
cost one dollar and a half. I can say, without hesitation, that I am better prepared for taking daguerreotypes than any artist has heretofore been
in this section of country, having spared no troubble nor expense in anytging that relates to a comble nor expense in anytging that relates to a com-plete apparatus or well furnished room; and as to pic-tures, I only ask people to call and see them for themselves. Grown persons can get as good pic-tures in cloudy as in fair weather, and some even better, so do not wait for fine days. Children should come on fair days, as the time of sitting is less.
